KEAR LAB Date: **25 October 2026** Due: **On receipt** (source is shared only after this invoice is paid in full) GST: **Not applicable** (unregistered / no GST charged)

From

KEAR LAB [Add your address, email, and phone]

Bill to

The YBDC Yashas Business Development & Consultancy [Add client address and contact]

Project

The YBDC property and services platform (web application + backend).

This invoice covers the **unpaid project balance** plus **source-code handover and intellectual-property assignment**. The client does **not** currently own the source or IP. Ownership transfers only after this invoice is paid and a short assignment is signed.

Line items (INR)

#	Description	Amount (₹)
1	Unpaid project balance (build / UAT / remaining work as agreed)	15,000
2	Source-code handover — frontend and backend repositories, README, environment sample (no live secrets), user guide and feature-status documents	2,50,000
3	Intellectual-property assignment — copyright in the custom YBDC application code built by KEAR LAB (client may host, modify, and hire others). Does not include third-party open-source libraries, paid APIs, or KEAR LAB tools	1,50,000
4	Knowledge transfer — one walkthrough call, up to 2 hours	25,000
5	Support — 30 days of bug-fix on the delivered build only (no new features)	50,000

	Amount (₹)
Subtotal	4,90,000
GST	Nil
Total due	₹ 4,90,000

Amount in words: Rupees four lakh ninety thousand only.

Payment

Bank name: [ ] Account name: **KEAR LAB** Account number: [ ] IFSC: [ ] UPI: [ ]

Payment reference: **INV-YDBC-2026-001**

After payment, KEAR LAB will deliver

1. Git access or an archive of the frontend and backend source

2. `.env.example` only — not production keys, SMS, maps, telephony, or database passwords
3. User guide and feature-status documents
4. List of third-party accounts the client must create and pay for (SMS, maps, storage, calling)
5. One walkthrough call (item 4)
6. Written IP assignment for the custom code (item 3)

Not included

• Hosting, domain, SSL, and third-party API bills
• New features listed as “not yet” or “not planned” in the feature-status document
• Work after the 30-day bug-fix window
• Other clients’ code, KEAR LAB internal tools, or AI/editor setup
• Production secrets currently used to run the live/test servers

Terms

1. Repositories and IP assignment are released **only after** ₹ 4,90,000 is received in full.
2. Until payment, KEAR LAB retains all rights in the custom source.
3. Open-source packages stay under their own licences (for example MIT).
4. Bug-fix support covers defects in the delivered build, not new scope.
5. This invoice is the commercial offer for handover. Sign and return if you accept, or request a change in writing before payment.
